## **DETAILED ACTION**

### ***Election/Restrictions and Amendment***

1. Claims 1-6 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention (Group I), there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/21/05.
2. Applicant's amendment on 6/21/05 cancels claims 1-6 and adds claim 10. Therefore, claims 7-10 are pending.

### ***Information Disclosure Statement***

3. The information disclosure statement filed 2/12/02 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3627

In claim 9, it is unclear if the storage apparatus owner is charged a fee or receives the fee.

Clarification is requested.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

7. Claims 7-10 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,748,502 (hereinafter “Watanabe”).

Watanabe discloses a method of managing a storage system. A service provider offers a plurality of storage volumes for use (see column 3, lines 55-61). Duplication of data is taught in Figure 4. It is inherent that a fee will be charged for the service.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.

Ellis et al. and Yamamoto et al. are cite of interest for disclosing storage services.

Moore's article (First ISP, Then ASP Now SSP!) is cited of interest for disclosing features offered by service storage providers.

Art Unit: 3627

O'Neill's article (What to expect from SSPs) is cited of interest for disclosing features offered by service storage providers.
